#### Cab-Trak Communications & Tracking System

Introducing Cab-Trak - the Ultimate Communications and Tracking System. Eliminating the need for cellular phones, Cab-Trak utilises both voice and message capabilities to grant you maximum oversight on all dialogues to and from your vehicles.

• Know exactly where your vehicles are.

• Know exactly how fast they are travelling and in what direction.

• Make on the spot calculations for discerning customers... Even better still send a position direct to their PC.

• It's more accurate than a tachograph.

• Settle disputes instantly by retrieving information from the three months of stored data.

• Potential payback period of less than two years.

• Feasible reductions on insurance.

• Extremely simple and user friendly.

• The voice mode is completely locked to your specifications.

• Automatically records all data for up to three months, which can be retrieved and played back at any time.

• Adds extra security to your vehicle and will notify you if anyone tampers with it.

• Have Cab-Trak confirm all dialogues have been sent and received successfully.

• You control everything, as the system is pre-programmed and locked to your specifications.

• You can save anything up to 85% on your current phone bills.

Why not give us a call to discuss how we can help your business with Cab-Trak?

#### SpotOn Fleetbox Asset Management
