### Dressing Tips - Hints & Ideas

When we want to look and feel good, it is not our shape or sizes that is so important. We should be more aware of how are clothes fit.

The right clothes is not so much about the latest styles or fads or following the glossys. It is more about finding the right outfit that compliments our bodies and what makes us feel good.

Today, the choice is so varied, we should be able to find something that will compliment our shape, size and colourings.

â€¢ Always flatter your body shape by following simple guidelines -

â€¢ Never finish any part of a garment at the widest part of your body

â€¢ Do not let hem lines finish at the fullest part of your legs

â€¢ Do not let tops finish short of your tummy if you have a wide waist â€¢ Do not wear 3/4 length sleeves in tops etc. if you have a very full bust
